

FOSTER *the* FUTURE

BACK TO SCHOOL

SPONSORSHIP OPPORTUNITIES

07/25/26 | 10AM-3PM

As the school year approaches, most kids are busy picking out their favorite backpacks, shopping for new clothes, and organizing their school supplies. But for many kids in our foster care community, this season can highlight everything they lack: stability, resources, and a sense of normalcy.

At Austin Angels, we believe that every kid deserves to feel confident and prepared when they walk through the school doors, and that starts with meeting their tangible needs and reminding them they are seen, valued, and supported.

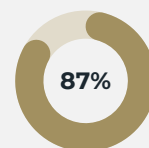

Did you know...

Less than 50% of youth in foster care graduate high school by age 18, compared to approximately 85% of youth in the general population.

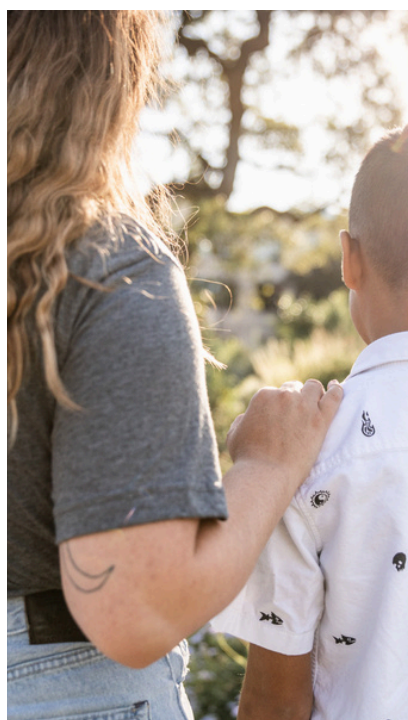

Our programs were built to change this.

By providing consistent mentorship, academic support, and relational stability, our programs help close the educational achievement gap for youth in foster care.

of Dare to Dream® caregivers report that their youth have graduated on time or are expected to do so

Kids experiencing foster care face unique and complex educational challenges. On average, they change placements and schools multiple times, which often leads to gaps in learning, delayed progress, and emotional strain. Many of these children enter new classrooms already behind academically, and without access to the proper supplies or support, they struggle to catch up. The stress of navigating a new school – often without the guidance of a consistent adult advocate – can be overwhelming. That’s why providing these students with the tools they need is critical to their success.

But our mission goes beyond backpacks and lunchboxes. By creating a joyful, dignity-filled Back to School celebration at our Foster Care Community Center, we give kids and families the opportunity to choose what they need and step into the new year with a sense of belonging and excitement.

Supporting kids experiencing foster care before the school year starts is one of the most powerful ways we can set them up for long-term success. It's not just about pencils and sneakers – it's about hope, equity, and the chance to thrive. We're so grateful for your support!
